Our Mission

At Lumex™Pavers, our mission is to elevate your life through our innovative and captivating roovescape solutions. As the pioneer in incorporating glass pucks into pedestal pavers, we are committed to revolutionizing how you experience your outdoor spaces. Our exceptional products provide a seamless blend of functionality, durability, and aesthetic appeal, allowing you to create breathtaking landscapes that inspire and transform. Through our unwavering dedication to innovation, sustainability, and outstanding customer service, Lumex™Pavers aims to be the premier choice for glass-infused pedestal pavers, empowering individuals to redefine outdoor design possibilities that truly shine.

A modern outdoor patio area featuring wooden furniture, a pergola, and a building in the background. The patio is furnished with wooden sofas and a coffee table, and a pergola structure is visible in the background. The ground is paved with light-colored tiles with circular patterns. The overall atmosphere is contemporary and inviting.

“Architecture is not based on concrete and steel, and the elements of the soil. It’s based on wonder.”

- DANIEL LIBESKIND

Introducing Lumex™

Why Lumex™ Pavers?

Lumex™ Pedestal Pavers illuminate outdoor spaces, offering a durable, aesthetically pleasing solution that turns rooftops, walkways, and patios into enchanting, well-lit areas for both residential and commercial settings.

Increasing Your Value

Integrating glass and light into your project enhances its aesthetic appeal and significantly boosts its value, creating an ambiance of sophistication and modern elegance. This fusion of materials and illumination transforms ordinary spaces into captivating, high-value areas, attracting increased interest and appreciation.

A rooftop terrace with modern furniture, fire pits, and a city skyline in the background. The terrace features a light-colored floor with a grid of circular perforations. In the foreground, there are two large, round, grey fire pits with flames. To the left, a modern grey sofa is visible. In the center, there are several round tables and chairs. In the background, a city skyline with tall buildings is visible under a clear sky. The text "Our Formula for Success" is overlaid in the center, with "FROM DESIGN TO INSTALLATION" below it.

Our Formula for Success

FROM DESIGN TO INSTALLATION

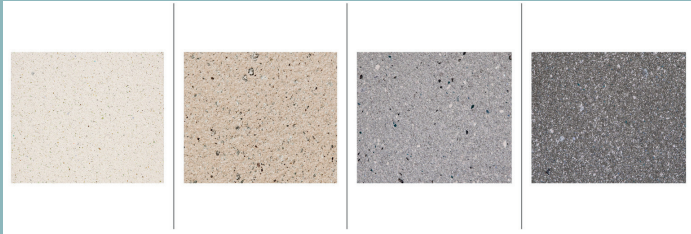

Lumex™ **powered by Circle Redmont®**, excels in the architectural glass industry, demonstrating success from fabrication to installation. Our expertise spans over six decades, focusing on creating high-quality, innovative glass products tailored for various architectural applications.

This success is rooted in our meticulous approach to fabrication, where quality and precision are paramount. Circle Redmont® ensures that each project is executed with the same level of excellence, resulting in functional, aesthetically pleasing, and durable installations. This end-to-end proficiency cements our reputation as a trusted leader in the industry, capable of transforming architectural visions into tangible, impressive realities.

Pedestal Options

Lumex[™] has partnered with the world's leader in roofscapes, Bison Innovative Products. Together, we provide a complete pedestal paver solution. From design to installation, Bison makes it easy.

Precast Colors

We currently offer four standard colors with the option of custom colors upon request.

Lighting Kits

Lumex[™] offers lighting options to provide luminosity and allure. Ask one of our specialists for details.

Paver Sizes-Concrete

Lumex[™] offers both 23 7/8" x 23 7/8" x 2 and 23 7/8" x 47 7/8" x 2 pavers available with 3" glass pucks or solid plank glass pavers.

Paver Sizes-All Glass

In glass, we offer 23 7/8" x 23 7/8" x 1 1/2" and 23 7/8" x 47 7/8" x 1 1/2" within an aluminum framework.

Finish Options

We offer two types of finishes for our concrete pavers- acid etched or sandblasted. For our solid plank glass pavers, we offer clear and a variety of traction control frits patterns.

The image shows a rooftop terrace at dusk. The floor is covered in square tiles with a circular perforated pattern. In the center, there is a long, low, dark-colored table. To the left and right, there are modern outdoor sofas and chairs. The background features a city skyline with several high-rise buildings, some of which have their lights on. The sky is a mix of blue and purple, indicating twilight.

Our Track Record

Circle Redmont,[®] the parent company of Lumex[™] Pavers, has established itself as a leader in the architectural glass industry, renowned for its commitment to quality, innovation, and craftsmanship. With over 64 years of experience, we specialize in producing high-quality glass for diverse applications such as flooring, walls, and structures. Our track record is highlighted by numerous successful projects and satisfied clients, demonstrating our ability to infuse spaces with elegance, functionality, and modern design.

CIRCLE REDMONT®
LIGHT PENETRATING SYSTEMS

Leading The Way One Step At A Time

Structural Glass Pros

Circle Redmont® stands distinguished as the global pioneer in structural glass block, glass pavers, and plank glass panel systems, with a legacy rich in innovative designs extending beyond six decades. We are devoted to empowering the Architectural, Design, and Engineering community by offering robust solutions to their most intricate designs, ensuring their creative visions are realized without compromise.

Engineered to Last

Our designers and engineers are committed to selecting the highest-grade materials and proprietary compounds to ensure our products stand the test of time. We harmonize installation, serviceability, and maintenance requirements with optimal design integration. Our steadfast commitment to delivering consistently well-engineered products meticulously designed to endure and perform over time.

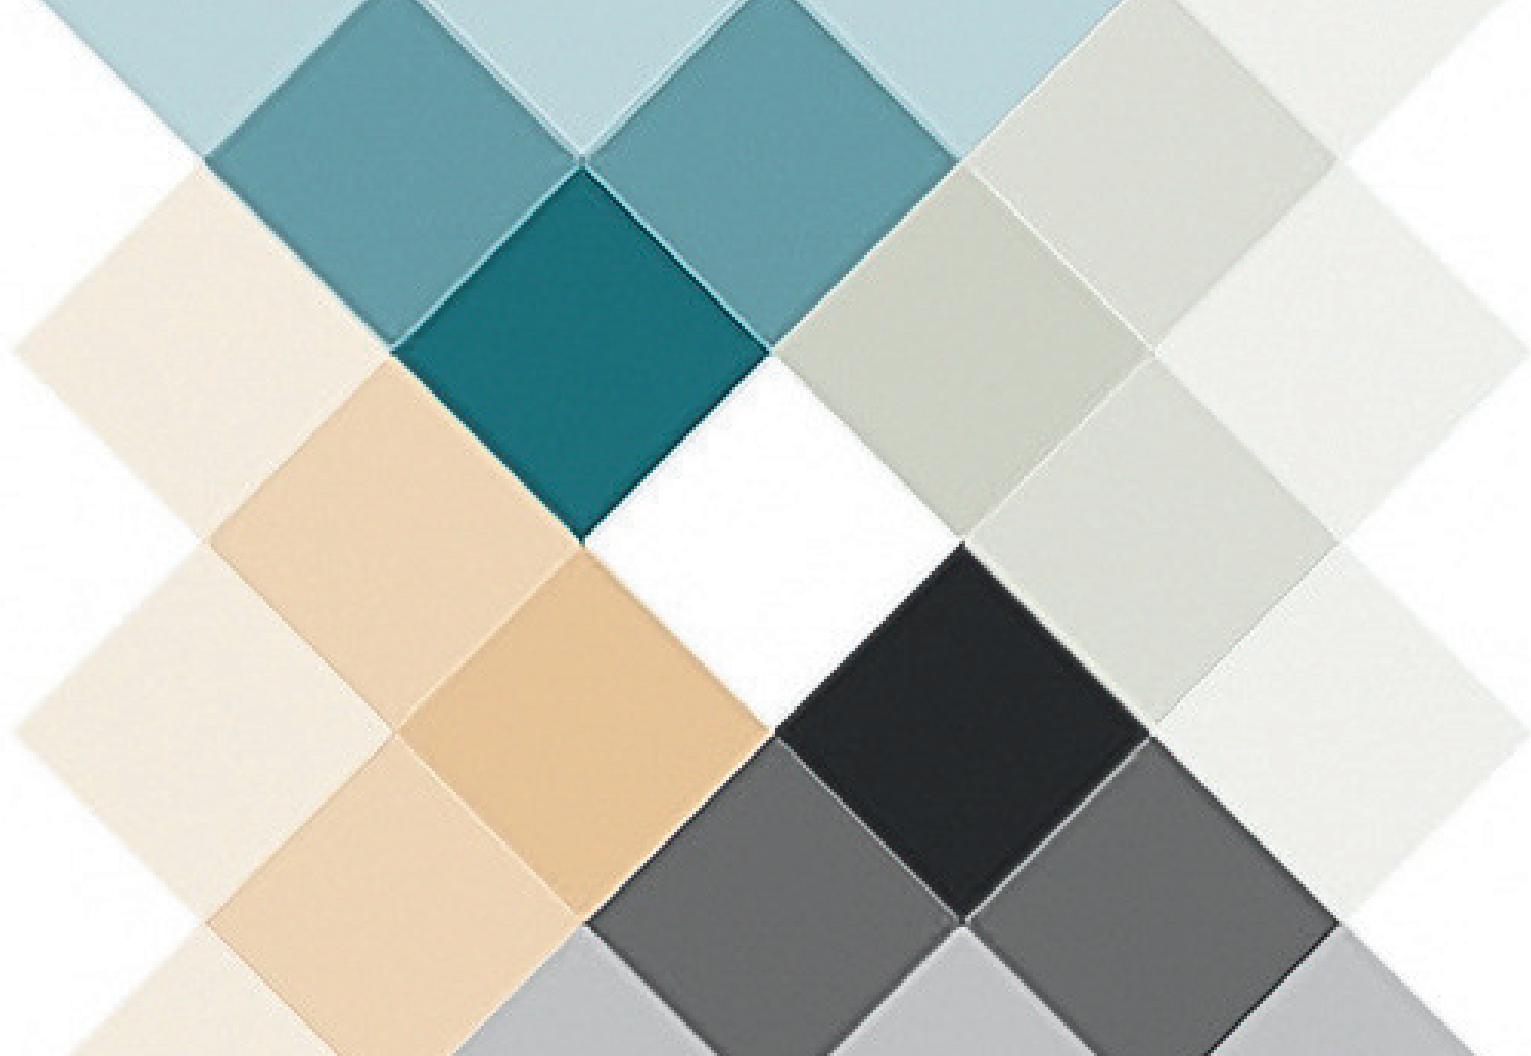

THE VISIONARY BEHIND THE DESIGN

"Architecture dances in the light;
without it, even the grandest designs
are but shadows."
